KEY POINTS

- Supply chain disruptions and global labor shortages are now a big problem for businesses around the world.
- Shifts that have taken place in society are becoming more pronounced on the labor market.
- Many ageing workers retiring or people voluntarily quitting roles just as demand for workers rises.

KEY POINTS

- Twenty-one percent of American workers took a new job in the past 12 months, according to a Grant Thornton survey.
- Of them, 40% are actively looking for another job.
- Such job-switchers may account for a large share of the labor-market churn in the near term as the Great Resignation continues.

KEY POINTS

- Hospitality and service sectors can't hire enough workers to staff what's expected to be a bustling summer.
- Microsoft, Meta and other companies have signaled they plan to be more cautious around hiring.
- The divergence could mean a slowdown in wage growth, or hiring itself, and could curtail spending, which has been robust despite deteriorating consumer confidence.
